Quando il design incontra la golosità, il benessere si trasforma in piacere.

Come insito nel suo nome - in italiano leccornie, ghiottonerie - la Gourmandise è una collezione super golosa, e al tempo stesso un inno all'Italia e al Made in Italy.

“Ho inteso declinare la cioccolata nell'imbottito” dichiara il suo ideatore, il Direttore Creativo di Calia Italia, l'architetto Saverio Calia, che mentre la presenta ha l'espressione trasognata di chi ha un debole per i dolci e ne apprezza quella maestria tutta italiana, insita nella sua arte.

Una collezione per veri golosi che parte dal cacao e - giungendo alla sensazione di scioglievolezza propria del cioccolatino - ne genera un'intera famiglia di modelli uno più irresistibile dell'altro.

Attingendo al mondo del cioccolato, non solo come alimento perfetto e ricco ma anche come icona di gusto e stile, Calia Italia dà vita a Gianduiotto, Cremino, Dragées, Gianduia e Pralin, immaginando di voler accogliere i propri ospiti con un ghiotto vassoio di cioccolatini.

Fil rouge di tutta la collezione è la base che rappresenta il “vassoio” su cui vengono offerti i “cioccolatini”, rappresentati dalle spalliere e dai braccioli dei singoli modelli, che condividono forma e disegno e si differenziano invece nelle dimensioni. Capostipite della collezione è il Gianduiotto, i cui cuscini e le cui spalliere evocano l'omonimo cioccolatino torinese, famoso in tutto il mondo per la sua prelibatezza e l'inconfondibile forma allungata che ricorda un lingotto.

Una collezione di prodotti che incuriosiscono, attraggono, seducono e deliziano. Modelli disegnati per dare vita a una comfort experience da godersi fino ad abbandonare i propri sensi: il trionfo dell'estetica del desiderio. Dalla conversazione formale al relax più indisciplinato, dall'indoor all'outdoor, dal prodotto strutturato al modello tutto da costruire, la Collezione Gourmandise esprime la voglia di vivere il divano in modo intenso, saziando gusti e capricci.

When design meets gluttony, wellbeing becomes pleasure.

As inherent in its name (in Italian leccornie, gluttony), Gourmandise is a super gluttonous collection whilst being at the same time an ode to Italy and 'Made in Italy'.

"I wanted to interpret chocolate through upholstery," says its creator Saverio Calia (the Creative Director of Calia Italia), who, while presenting it, has the dreamy expression of someone who has a weakness for sweets and appreciates the all-Italian mastery inherent in his art.

This is a collection for true connoisseurs that starts with cocoa and reaches the melting sensation of chocolate, thereby generating an entire family of models – each one more irresistible than the last.

By seeing chocolate not only as a precious and sumptuous food but also as an icon of taste and style, Calia Italia draws upon the world of chocolate to give life to Gianduiotto, Cremino, Dragees, Gianduia and Pralin – all whilst imagining how you might want to welcome your guests with a tempting tray of chocolates.

The central theme running through the entire collection is the base that represents the 'tray' on which the 'chocolates' are offered. These in turn are represented by the backrests and armrests of the individual models, which share the same shape and design but differ in size. The star of the collection is 'Gianduiotto', with cushions and backrests that evoke the Turin chocolate of the same name, famous throughout the world for its delicacy and unmistakable elongated shape reminiscent of an ingot.

Calia Italia presents a collection of products that intrigue, attract, seduce and delight. The models are designed to create a comfort experience that can be enjoyed to the point of abandoning one's senses, indeed the triumph of the aesthetics of desire. From formal conversation to the most undisciplined relaxation, from indoor to outdoor and from the structured product to the model yet to be built – the Gourmandise Collection expresses the desire to live your sofa in an intense way, satiating tastes and whims.

GIANDUIOTTO JR

Figlio del Gianduiotto, capostipite della collezione, Gianduiotto Jr è un divano destrutturato, concepito per dare vita a momenti informali e di totale relax. La base, che caratterizza l'intera collezione, rappresenta il vassoio su cui poggia la seduta. I cuscini-spalliera richiamano la forma del cioccolatino e, così come la seduta, sono impreziositi da cuciture dall'effetto impunturato. A completare la comfort experience del modello, un'imbottitura accogliente e morbida.

The son of collection leading 'Gianduiotto', 'Gianduiotto Jr' is a deconstructed sofa, designed to create informal moments of total relaxation. The base, which characterises the entire collection, represents the tray on which the seat rests. The back cushions recall the shape of chocolates and, like the seat, are embellished with a stitching effect. Soft and cosy padding completes the comfort experience of the model.

DRAGÉES

Il Dragées, dal francese "confetti", è la variante più strutturata del Gianduiotto. Pur traendo spunto dalle sue spalliere e dai suoi braccioli, il Dragées li personalizza aumentandone l'altezza per favorire un comfort più composto e sostenuto. Modello di estrema eleganza, è sollevato da terra ed è connotato da una sottilissima base su cui poggiano direttamente spalliere e braccioli, blocchi unici arricchiti da una cucitura decorativa e pronti per essere gustati, come su un elegante vassoio, uno dopo l'altro.

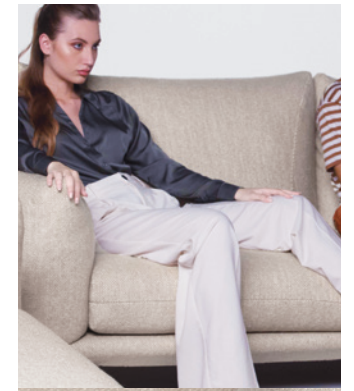

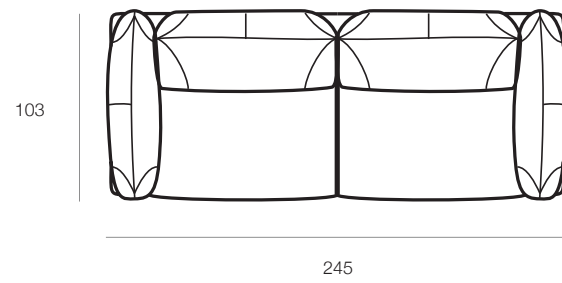

Dragées (from the French 'confetti') is the more structured variant of the 'Gianduiotto'. Although inspired by the Gianduiotto's backrests and armrests, the Dragées customises them by increasing their height to provide a more composed and supported comfort. It is a model of extreme elegance, raised from the ground and featuring a very thin base on which the backrests and armrests rest directly and are enriched by a decorative stitching. They are like unique pieces of chocolate, all ready to be enjoyed, as if on an elegant tray, one after the other.

CREMINO

Il Cremino celebra la scioglievolezza del noto cioccolatino piemontese ed è il modello destrutturato per eccellenza, caratterizzato dalla sregolata golosità di chi non può farne a meno.

Proprio come il cioccolatino da cui prende il nome, la seduta del Cremino – appena sollevata da esili piedini in legno – ricorda il quadrotto composto dagli strati di cioccolato gianduia e nocciola.

Le poliedriche forme della seduta modulare, che funge anche da base, esaltano l'eterogeneità dei colori e dei sapori del cioccolatino e si differenziano l'una dalle altre, in una molteplicità di moduli dalle geometrie scultoree e dagli angoli arrotondati, congiunti da "pouf nodo" e "base tavolino".

Anche le spalliere, di due dimensioni differenti, seguono la stessa libertà e la esaltano disponendo di una base zavorrata che le rende posizionabili liberamente.

Le spalliere, i cuscini decorativi, il pouf e la spalliera secchiello - arricchiti da un bordone decorativo - richiamano nella forma tutti i cioccolatini della collezione Gourmandise, assieme ai tartufi e alle sfoglie di cioccolato. Il Cremino, avvalendosi di tutte le leccornie della tradizionale cioccolateria italiana, nasce come divano da centro stanza e invita al comfort declinabile in tutti i modi possibili. I singoli moduli possono essere scomposti, i cuscini e le spalliere possono essere spostati, posati per terra, sparsi per casa, in base alle più disparate esigenze e consentono di modulare gli spazi in maniera flessibile e sempre nuova.

Le basi, di diverse dimensioni, possono vivere singolarmente, essere affiancate tra loro o abbinate a pezzi speciali (base dormeuse e base chaise longue) o ancora intervallate da "basi-angolo" che permettono di creare con pochi elementi svariate configurazioni. Infine, il "pouf nodo" rappresenta l'elemento terminale o intermedio tra due basi e può essere corredato di piano tavolino in legno.

The 'Cremino' celebrates the melt-in-the-mouth nature of the famous Piedmontese chocolate and is the deconstructed model par excellence, characterised by the unbridled gluttony of those who cannot do without it.

Just like the chocolate from which it takes its name, the seat of the 'Cremino' (barely raised by slender wooden feet) is reminiscent of the square composed of layers of gianduia and hazelnut chocolate.

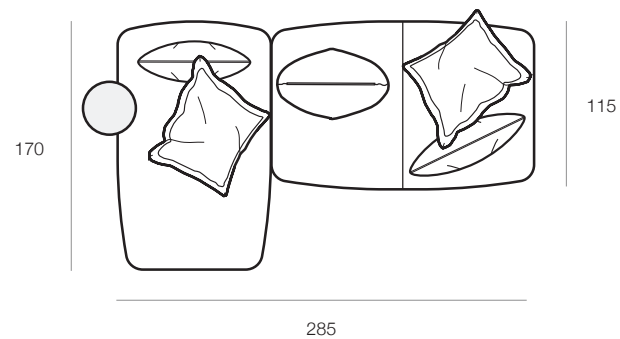

The multifaceted shapes of the modular seat, which also serves as a base, enhance the diversity of the chocolate's colours and flavours and differ from each other in a multiplicity of modules with sculptural geometries and rounded corners. It is also joined by a 'Knot footstool' and 'table base'.

The backrests, with two different sizes, follow this same freedom and enhance it by having a weighted base that makes them freely positionable. The backrests, decorative cushions, footstool and bucket backrest (enriched by a decorative border) recall in their shape all the chocolates from the Gourmandise collection as well as truffles and chocolate sheets. The 'Cremino', using all the delicacies of traditional Italian chocolate, is designed as a sofa for the middle of the room and invites you to enjoy comfort in all possible ways. The individual modules can be taken apart and the cushions and backrests can be moved, placed on the floor or scattered around the house, according to the most diverse needs – meaning that you can modulate your space in innovative and flexible ways.

The different sized bases can be used individually, side by side or combined with special pieces (dormeuse base and chaise-longue base) or even interspersed with 'corner bases' that allow you to create a variety of configurations with just a few elements. Finally, the 'Knot footstool' represents the terminal or intermediate element between two bases and can be equipped with a wooden table top.

GIANDUIA

Il Gianduia, con i suoi volumi generosi e tondeggianti, evoca la crema al cioccolato e nocciole più invidiata e desiderata di tutta la penisola italiana. Le spalliere e i braccioli conservano la cucitura decorativa, sembrano sciogliersi e fondersi sulle generose sedute stondate, che pure si ispirano ai Gianduiotti. Anche la base è semichiusa, quasi a sentire il "peso" di tanta dolcezza, e la seduta è più bassa e profonda per un comfort decisamente avvolgente. Il bracciolo poggia sulla seduta e nella parte posteriore è collegato alla spalliera, con cui si fonde, in un blocco unico, prima di essere incartato.

The 'Gianduia', with its generous, rounded volumes, evokes the most envied and desired chocolate and hazelnut cream in all of Italy. The backrests and armrests retain their decorative stitching and seem to melt and merge onto the generous rounded seats, which are also inspired by Gianduiotti. Even the base is semi-closed, as if to feel the 'weight' of so much sweetness. The seat is lower and deeper for a decidedly enveloping comfort and the armrest rests on the seat and is connected at the back to the backrest, with which it merges into a single piece of chocolate just waiting to be wrapped.

PRALIN

Ispirato alla golosissima crema al pralinato di nocciole, morbida e setosa, nasce il modello Pralin, una sorpresa continua. Dalla base esile e semichiusa che poggia su piccoli piedi in legno finitura mogano a scomparsa, Pralin è il divano componibile e destrutturato per eccellenza. Tutti i singoli elementi che lo compongono sono amovibili e poggiano sulla base proprio come i cioccolatini su un vassoio. Pralin è il modello più versatile della collezione in quanto completamente disassemblabile: può essere composto in molteplici versioni che contemplano, oltre all'angolo e angolo quadrato, anche le versioni terminale o terminale meridian e la versione isola che funge da vero e proprio day bed. Il modello prevede anche un tavolino rotondo che può essere inserito tra le sedute fungendo da base d'appoggio e da elemento decorativo. Non resta che scegliere il comfort desiderato e gustarlo in pieno relax.

Ispirato alla golosissima crema al pralinato di nocciole, morbida e setosa, nasce il modello Pralin, una sorpresa continua. Inspired by the delicious hazelnut praline cream, the 'Pralin' model is a soft and silky continuous surprise. With its slender, semi-closed base resting on small, concealed mahogany-finished wooden feet, 'Pralin' is the modular, deconstructed sofa par excellence. All the individual elements that make it up are removable and rest on the base just like chocolates on a tray. 'Pralin' is the most versatile model in the collection as it can be completely disassembled. It can be composed in multiple versions that include (in addition to the corner and square corner) the terminal or terminal meridian versions as well as the island version that acts as an actual day bed. The model also includes a round table that can be inserted between the seats as a base and decorative element.

All that remains is to choose your desired comfort and enjoy it in total relaxation.

GUARDAROBA

Chi ama il cioccolato ama il suo lato più creativo, quell'innata capacità di sperimentare creando abbinamenti di gusto e note di colore. Seguendo questo stile, la collezione Gourmandise si arricchisce della sezione "Guardaroba", rappresentata da cuscini di design ed elementi di arredo con cui guarnire il proprio divano e dare un tocco ancora più goloso alla propria comfort experience.

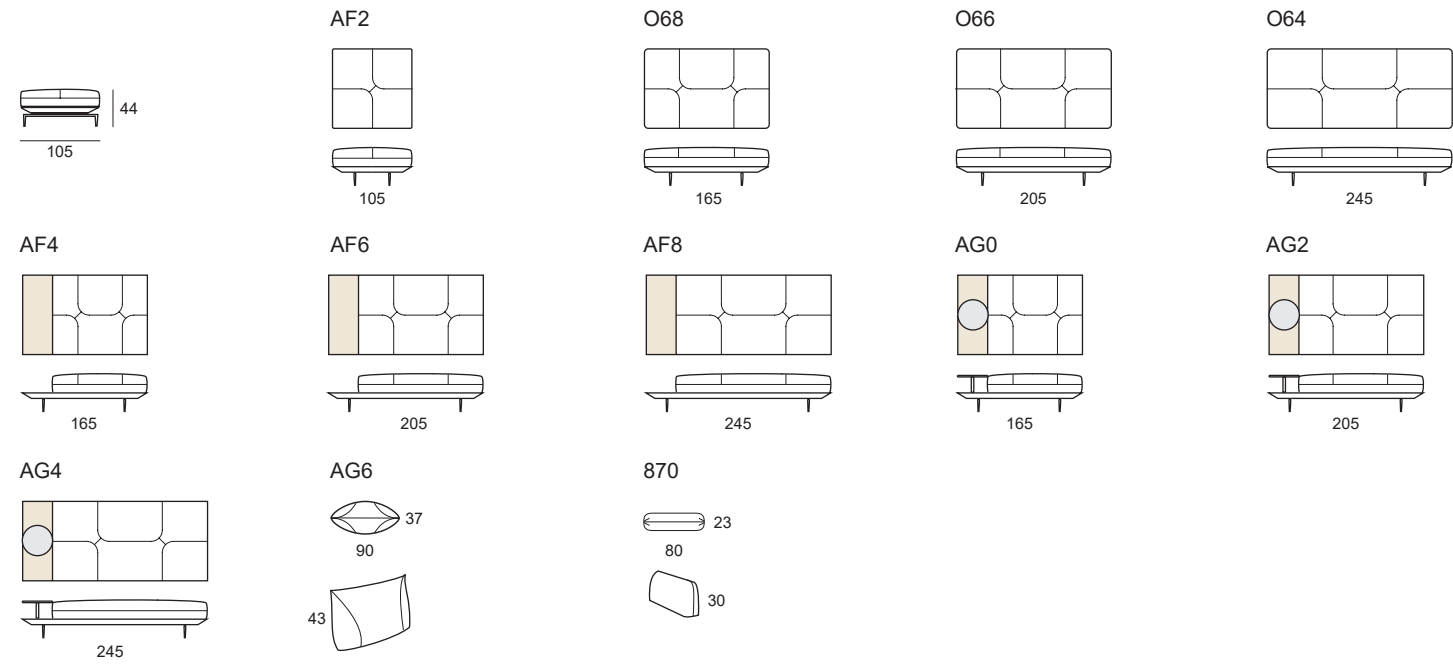

Chocolate lovers like its most creative soul, the natural ability to experiment by creating union of tastes as well as hints of color. Following this style, Gourmandise collection is enriched by the "Wardrobe" section, embodied by stylish pillows and furnishing elements for garnishing your own sofa and give an even more delicious touch to your own comfort experience.
